Skills

tensorflow

PyTorch

python

PHP + laravel

HTML

jQuery + Sql

Node.js

wordpress

Git

ajax

JavaScript

UI/UX + bootstrap

CSS

Profile

I am Mohammad Nematizadeh with 4 years of experience and strong skills in web development and application development in the field of machine learning and Python.

work History

Deep Learning

2021 – PRESENT

Persian License Plate Recognition : Vehicle license plate recognition using YOLOV8 and DARB (deep text recognition criteria)

Face Recognition: In this face recognition project using InsightFace And pytorch is built

BrainTumor: Brain tumor diagnosis by tensorflow opencv built in tkinter graphical environment

Audio Classification : Identify sounds in audio clips using Tensorflow and pydub

Akhund and Human: A deep learning model using MobileNetV2 Convolutional Neural Network is trained to recognize the human body

Website Mohammad Shop : In this project , laravel , ajax , js , vue.js , bootstrap , mysql, PHP, HTML, CSS are used

Social network project: A social networking website using laravel and ajax and js and bootstrap and HTML and recaptcha-v3 is used in this project

PlantsAI Website : A powerful plant identifier to identify flower s In this project tensorflow , ajax , js , vue.js , bootstrap , HTML, CSS , are used

Employment History

Web developer , norozzadeh.com, Mashhad

FEBRUARY 2023 – PRESENT

This project is built using Ui/UX ,Front-end

Projects

website taxi

FEBRUARY 2022 – MARCH 2022

In this project,laravel,ajax,js,vue.js,bootstrap,mysql, PHP, HTML, CSS are used
[GitHub repo](#)

digikala website

MAY 2022 – AUGUST 2022

In this project,laravel,js,vue.js,ajax,bootstrap,mysql, PHP, HTML, CSS are used
[GitHub repo](#)

Medical services website

JUNE 2022 – AUGUST 2022

mysql

xampp

typescript

Vue Js 3

Hobbies

Programming

Languages

English

Persian

In this project,php,js,ajax,vue.js,bootstrap,mysql,html,css are used

[GitHub repo](#)

BrainTumor

JANUARY 2023 – FEBRUARY 2023

Diagnosis of brain tumor by python built in graphical environment

In this project tensorflow and OpenCV and python

Face Detection

MAY 2022 – PRESENT

Wtire a program to open webcam and apply some filters

used in this project opencv,python

17 Flowers

JANUARY 2022 – PRESENT

A deep learning model using VGG16 convolution neural net is trained to classify flowers [GitHub repo](#)

Age Prediction

JULY 2022 – NOVEMBER 2022

Automatic estimation of human age based on the appearance of human face [GitHub repo](#)
